- English (Fluent)

### PERSONAL STATEMENT

Intermediate Programmer and aspiring Game Developer with a background in IT and Game Design & Development. 4+ years of experience of working in teams and many personal projects. Enthusiastic about work but still critical when problems arise, clear but earnest when giving feedback or critique. Proficient with software used in the Game Dev space, like Unity, Photoshop or Maya.

### WORK EXPERIENCE

#### ○ LEAD WRITER & ARTIST | 2025 - NOW

In an [Upcoming RPG indie game](#) (remote)

- Management & Revision of the main game's story and dialogues;
- Character, dialogue, story, and environment writing;
- Brainstorming ideas, rejecting the ones that don't work and accepting the ones that do work

#### ○ ITALIAN TRANSLATOR | Feb 2025 - July 2025

Helped translating [TS!Underswap](#) (remote)

- Translation management of specific lines of dialogues and flavour text;
- Proofreading, making sure that all text does not exceed outside the text box;
- Playtesting of certain areas

### PERSONAL PROJECTS

- A game to fall asleep by counting sheep in a metronome-styled gameplay
- A game where a spaceship has to avoid bullets and destroy other ships to upgrade itself
- A game where 4 people have to survive in a metro and can go out only at night
- A custom Minecraft datapack where you use alchemical and fantasy elements to get through and reach the final goal
- A personal YouTube channel to showcase my work and other small projects
